The Purpose Booster Booster

What is The Purpose Booster Program?

Purpose is the driving force that gives strength and direction to what we do. In dealing with the day-to-day problems of running a practice, that purpose becomes weaker, thereby making the problems seem larger. Eventually, the problems will overwhelm the purpose, leaving the doctor hopeless. The Purpose Booster Program is a three-day, one-on-one consulting program which revitalizes your purpose by helping you identify and dissolve the obstacles to achieving it.

- The Purpose Booster sorts out your purpose as a doctor and helps you to permanently fortify that purpose, so you more easily achieve your goals!
- It zeros in on the obstacles that blunt your purpose and teaches you how to easily push through them.

- You will discover how the decisions you made have created your own problems and gave them the strength to stop you.
- You will learn the exact steps to implement so you and your staff are impassioned about your purpose 24/7!
- The Purpose Booster Program helps you to achieve the viewpoint you need to have in order to overcome the problems you encounter and become as successful as you are meant to be.

"I've had the most amazing realizations about me. I realized I was stopping every part of my practice. I know why now. I know exactly what has to be handled. I know exactly what action steps to take. The Purpose Booster Program is phenomenal!"
